Profile

I am a full stack web and mobile developer passionate about IT and new technologies. I am curious and rigorous in my approach to development, with a strong ability to adapt effectively to team work environments. I am excited to continue developing my skills and contribute to innovative projects.

Education

Software Engineer Student — Mohammed VI Polytechnic University - 1337   📅 2021 - present

First Year Of Bachelor's In Physical Sciences — Moulay Ismail University   📅 2018 - 2019

Baccalaureate Of Physical Sciences — Salam High School   📅 2017 - 2018

Experience

Thinkable — Software Engineer   📅 Nov 2023 - Apr 2024

Project AI-Powered Script Writing Software (PlotDot)

`Angular` `Nest.js` `MongoDb` `GraphQl`

- Developed and enhanced core components of PlotDot.
- Improved the application's performance, appearance, and usability.
- Improved the application's performance, appearance, and usability.
- Contributed to significant user interface improvements.
- Received a commendation for outstanding skills and dedication from Matt Sanders, President of Thinkable, upon completion of the internship.

Skills & Tools

Languages

`HTML` `CSS/SCSS` `TypeScript` `JavaScript` `C/C++`

Technologies

UI related   `Tailwind CSS` `Material UI` `Daisy UI` `Aceternity UI`

FE related   `React` `React Native` `Next.js` `Angular`

BE related   `Express` `MongoDB` `Nest.js` `GraphQl`

Tools & Softwares

Coder related   `VS Code` `Node.js` `Git`

Designer related   `Figma`

Projects

HyperTube   https://github.com/mhaddaou/hypertube

`Next.js` `Tailwind CSS` `Typescript`

This project involves designing and developing the frontend of a movie streaming web platform. It focuses on creating a user-friendly interface, with dynamic animations and responsive layouts, while collaborating with a backend developer working on the server-side with Rust.

FT_Transcendence   https://github.com/mhaddaou/ft_transcendence

`Nest.js` `Next.js` `Socket.io` `Tailwind CSS` `Typescript` `PostgreSQL`

This project consists of creating a website for the mighty Pong contest including the user accounts, chatting in channels and playing the game pong features.

INCEPTION   https://github.com/mhaddaou/inception-42

`Docker`

This project aims to broaden our knowledge of system administration by utilizing Docker. I virtualize several Docker images, creating them on our new personal virtual machine.

FT_IRC   https://github.com/mhaddaou/ft_irc-

`C++`

Contributed to the development of an IRC server project, implementing server functionality, handling user connections, and ensuring seamless communication within the IRC network using C++.

Certificate

`REACT` `Python` `FRONT-END DEVELOPEMNT HTML-CSS` `PROBLEM SOLVING`

`INTRODUCTION TO JAVASCRIPT` `INTRODUCTION TO CYBERSECURITY`
